DayTripper

DayTripper from HCC Medical Insurance Services (HCCMIS*) is with you almost anywhere on the planet you may travel for mission trips.

Why Choose DayTripper?

Rio de Janeiro, Brazil

Barcelona, Spain

Whatever the reason, traveling internationally should be a pleasant experience. Emergencies and complications such as natural disasters, injury, or illness are a fact of life, and can be even tougher to manage if it is for a large group of people. While we hope none of these happen, we're here to help if they do. For your peace of mind, coverage for medical expenses in case of hospitalization, while in an intensive care unit, outpatient treatment, emergency medical evacuation, and loss of checked baggage, DayTripper has benefits you can count on.

My family has medical insurance in our home country; do we need group travel medical insurance?

Many times the primary medical insurance in your home country will not cover you and your family while traveling abroad. DayTripper includes essentials such as translation assistance while being treated, doctor and hospital referrals, and assistance replacing lost prescriptions.

Additionally, medical costs can be very expensive while abroad. Past clients have encountered over \$68,000 in medical expenses from an emergency medical evacuation alone. With DayTripper plans starting at less than \$1 a day (per person), can you afford not to have coverage?

After purchasing coverage, how can I trust the company to be there if I need them?

What's Covered by DayTripper?

International Coverage

Emergency Medical Evacuation and Emergency Reunion

Would you know what to do if you found yourself in a life-threatening situation far from home? HCCMIS is experienced in arranging emergency medical evacuations. DayTripper will cover the necessary expenses to transport you to the nearest medical facility qualified to treat your life-threatening condition. We also understand the importance of family support in these difficult situations. DayTripper will also cover the transportation, lodging, and meal costs for a relative to join you after an emergency medical evacuation.

Repatriation of Remains

What would your family do if disaster strikes while you are away from home? The death of a loved one is never easy, no matter the circumstances. In the unfortunate event of your death while traveling abroad, DayTripper will arrange for and cover the costs associated with the repatriation of your remains.

Return of Minor Children

If you are expected to be hospitalized for more than 36 hours due to a covered injury or illness and covered children under 18 years of age will be left unattended as a result, DayTripper will cover the transportation cost for the children to return home.

Terrorism

In these turbulent times, the risk of a terrorist attack is a reality. If you are in the wrong place at the wrong time, DayTripper offers coverage for medical expenses resulting from these acts.

Political Evacuation

If, during the coverage period and after your arrival, the United States government issues a travel warning for your destination country, DayTripper will coordinate your alternate departure arrangements from that country and cover the associated costs.

Natural Disaster Benefit

Natural disasters can happen anywhere and at anytime. If a natural disaster occurs while on your trip, causing you to become displaced from your accommodations, DayTripper will provide relief of a maximum of \$100 a day for 5 days to help cover the costs of alternative accommodations.

Hospital Indemnity

If you are hospitalized, the world around you does not stop. What's more, in some places hospitals do not provide their patients basic necessities like meals, toothpaste or soap. If you are hospitalized as an inpatient for treatment of a covered illness or injury, Atlas Group will provide \$100 for each night you spend in the hospital.

Other quality benefits offered by DayTripper* Acute Onset of Pre-Existing Conditions

If you are younger than 70, you may be covered for an acute onset of a pre-existing condition. Provides a limited benefit up to the medical coverage maximum for eligible medical expenses. This also includes a \$25,000 lifetime maximum for emergency medical evacuation. An acute onset of a pre-existing condition is a sudden and unexpected outbreak or recurrence of a pre-existing condition which occurs spontaneously and without advance warning either in the form of physician recommendations or symptoms. Treatment must be obtained within 24 hours of the sudden and unexpected outbreak or recurrence. Chronic and congenital conditions are excluded from coverage.

Hospitalization and Outpatient Treatment

If a covered illness or injury requires hospitalization, the plan provides coverage for costs associated with hospitalization care, including intensive care, and outpatient treatment.

Sports Coverage

DayTripper includes coverage for eligible injuries and illnesses that could occur while participating in many popular vacation sports - skiing, snowboarding, snorkeling, water skiing, and others - at no additional cost. Certain extreme sports are excluded from coverage.

Complications of Pregnancy
